AMOS 2023ws05 - Planning Document

Team Contract

| Goals Create a ChatBot per the company's requirements in a successful way | | | |
|--|---|--|--|
| | Maintain an agile manner of work in a good atmosphere | | |
| Meeting norms | The cameras should be turned on for better human communication | | |
| Meetings must not exceed 30 min over time, otherwise schedule another meeting. | | | |
| Delays should be informed and handled on agile way (write in the telegram group) | | | |
| | weekly meeting | | |
| Working norms | Contributing and communicating openly | | |
| Troning norms | Keep respect during possible conflicts (on technical issues z.B) | | |
| Coordination norms | Everyone sticks to assigned roles | | |
| | Everyone sticks to assigned foles | | |
| Communication norms | communicate in advance and don't leave it for the last minute (don't be ashamed of asking simple questions) | | |
| Consideration norms | We communicate conflicts openly | | |
| | Team final decisions are based on voting | | |
| Cont. improvement norms | Improvement suggestions are welcomed | | |
| - | Happiness index and standup emails to be reviewed in case of non-satisfaction | | |
| Rewards Obi makes the team a cake - final reward | | | |
| | Have coffee and bring games after the mid release | | |
| Sanctions | Team will decide on the memeber's sanction accordingly | | |
| Signatures | | | |

AMOS 2023ws05 - Planning Document Product Goal

| Product Vision P | Project Mission |
|---|---|
| leveraging Apache Spark and Delta Lakes. Users should be able to interact naturally with the Chat AI to describe, configure, and monitor data pipelines, while simultaneously been able to view the generated PySpark code. This should ensure support to the evolving incremental data processing needs. | The mission of Chat AI is to build a bridge in data integration within the Real-Time Data Integration Platform (RTDIP) by creating an innovative and conversational AI interface. The users, either from a technical or not technical background should be able to effortlessly configure and manage the data pipelines, accelerating data processing, making it accessible to the wider audience while ensuring transparency, efficiency, and scalability. |
